WHO WE ARE

We build the software your business runs on.

Hickter Technology Solutions is a full-stack product company. We design, build, host and support our own business software — ERP, point of sale and e-commerce — alongside custom websites, mobile apps and digital marketing for growing brands.

Web · Mobile · Commerce · ERP · Marketing

Your data stays yours. Your brand stays on the front. We keep the software running behind it.

Why businesses choose Hickter software

Real-time sync
Website, admin and app update together — a sale on the counter shows on the owner's phone instantly.

Web + Android app
Run the business from a browser or from our Android apps published on Google Play.

Owner stays in control
A Super Admin with roles and permissions decides who sees what — staff, managers, branches.

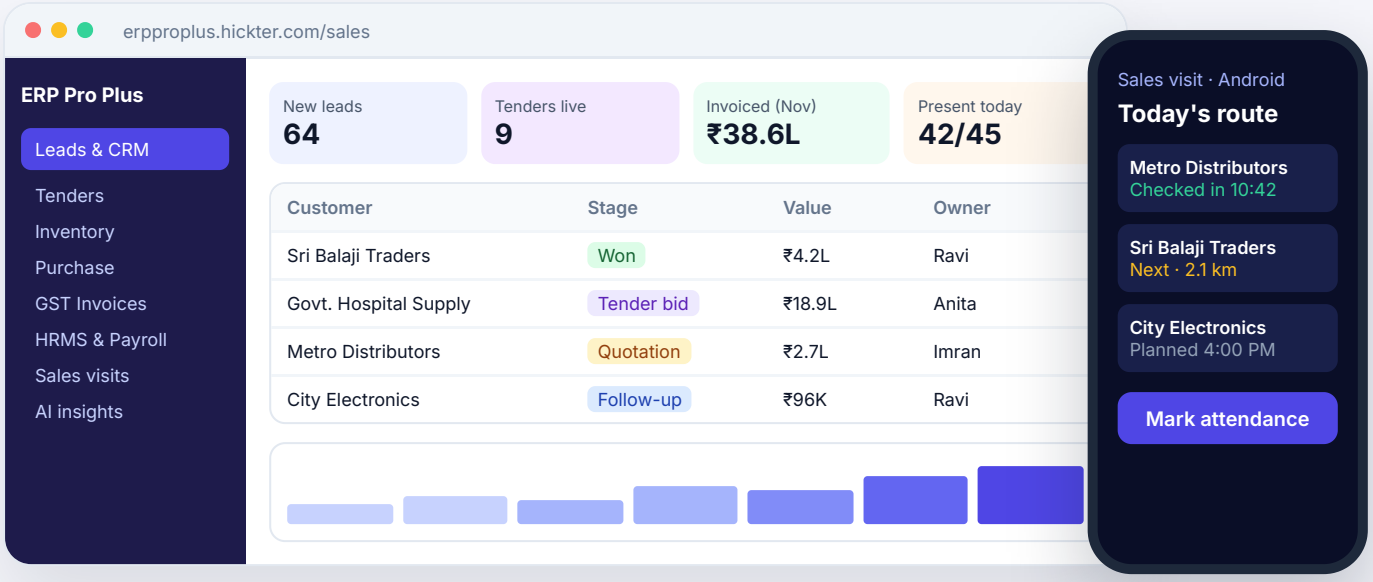
Built for India
GST-ready billing, rupee pricing and UPI-friendly checkout, made for Indian retail and trade.

Your brand, your domain
White-label setups with your own logo, domain and email — customers see your business, not ours.

Support that answers
A 24/7 support desk and one team that built the product — no hand-offs to strangers.

ERP Pro Plus by Hickter

Your whole business — sales, stock, staff and tenders — in one system.



- CRM, leads & follow-ups
- Tender sales & bids
- Inventory & purchase
- GST-ready invoicing
- HRMS, attendance & payroll
- Sales visit tracking
- AI insights & live reports
- Super Admin & role control
- Web portal + Android app

Choose your ERP Pro Plus plan
