WHO WE ARE

Engineering growth for the digital era.

Hickter Technology Solutions is a next-generation full-stack agency based in Raipur, India. We partner with startups, SMBs and enterprise brands to design, build and scale the digital infrastructure their business runs on — from high-speed websites and native mobile apps to e-commerce engines, custom ERP & CRM platforms and performance marketing.

Every engagement is built on clear sprints, honest pricing and full ownership — so you move fast, stay in control and keep everything we build.

Why teams choose Hickter

Six reasons businesses build with us and stay with us.

Speed-first builds
Sub-second web platforms, tuned for Core Web Vitals and edge delivery.

100% IP handover
Complete source code and repository transfer on completion.

30-day warranty
Post-launch critical bug-fix SLA on every fixed-scope project.

Agile bi-weekly sprints
Staging previews, approval gates and zero blind spots.

Active support desk
Priority engineer access on Grow & Business plans.

One-stop full stack
Web, mobile, commerce, ERP/CRM and growth marketing together.

SUCCESS IN THE DIGITAL ERA BELONGS TO THE FAST AND THE FOCUSED.

ENGINEERING CAPABILITIES
